## THE SANTA FE SHOP STRIKE

Topeka, May 4.—The Santa Fe officials announced this morning the resumption of shop work all along the line from Topeka to the Pacific coast.

It is stated that in most cases the shops are running with a full complement of men.

In many places the union mechanics have gone out but their places will all be filled by the close of the week, intimated the officials.

Third Vice President Buckalew says the trouble has just begun and that not another union man will return to work till the trouble is settled. He further says many will go out in sympathy.

No reports of violence anywhere.

**President Ripley Interviewed**

Los Angeles May 4.—The press today publishes a statement from President Ripley of the Santa Fe system on the subject of the strike in which he says the company is having no difficulty in filling the places of the men who quit work.

The company has no quarrel with unionism and dealt with it in the case of conductors, engineers, firemen and trainmen, but those unions had never made such outrageous demands as the machine-

ists. The company, however, could not accept the principle of the closed shop.

## LOCAL STRIKE SITUATION.

### NO NEW DEVELOPMENTS—THIRD VICE PRESIDENT BUCKALEW EXPECTED.

The strike situation is about the same—that is, there are no new developments, and all the union men of the mechanical division of the local shops, with the exception of the carpenters, are still out and they are conducting themselves in the most orderly manner.

Third Vice President Buckalew, who has been at Topeka the past week in consultation with General Manager Mudge and other Santa Fe railway officials, is expected here in a few days, when he will personally conduct the strike and be on the grounds to aid and confer with the local strikers.

Tomorrow morning, at the court house in chambers, Judge Baker will hear arguments in the injunction case, the strikers being represented by Attorney Bryan and Burkhardt, and the company by Col. R. E. Twitchell.

The unions are determined that the strikers conduct themselves in the best possible manner, which is indeed a credit to them, and resolutions have been adopted requesting the men to keep away from the shops off the Santa Fe railway right-of-way and from loitering on the streets and in saloons during the pending strike.

**Resolutions from Shop Men.**

The joint committee from the several unions involved in the present controversy with the Santa Fe company has completed its labors. The committee was appointed to draw up resolutions informing the public as to the causes leading up to the difficulty and the conditions under which the men would go back to work. The resolutions follow:

The machinists went out on a strike for this reason: The company had laid off union men, saying that owing to the failing off of business and the good condition of its power it was necessary to make a reduction in the force. And then after the reduction had been made and the company needed more men, instead of putting union men to work, they shipped in a number of unfair men and put them to work in the shops under a guard of armed deputies. This the machinists could not stand and they decided to walk out. The boilermakers then refused to work on any engine on which an unfair machinist was working. They told the management of the company that it would have to reinvoke the unfair men from the engines on which boiler work was to be done before they (the boilermakers) would do the work. The boilermakers then voted to strike. The carpenters also refused to work on any engine with an unfair man, and they also voted to strike.

The machinist helpers and boilermaker helpers were then told to do machinist and boilermakers' work. This they refused to do and a walk out was decided upon.

The handymen and helpers not liking the looks of the row men and helping in sympathy with those formerly employed, also went out.

As we are all out for the same cause and as we cannot expect to win this strike unless we bind ourselves together; be it

Resolved: That no man goes back to work unless every man who went out in this strike be allowed to take his

## INJUNCTION CASE UP THIS MORNING

The matter of the injunction came up for hearing at 10 o'clock this morning on the answer of many of the defendants. Motions to dissolve the injunction as well as affidavits of the plaintiff, after argument by counsel, were overruled, and thus the case will rest for thirty days or till June 1.

The court in the course of its remarks suggested that not only the parties to the suit were interested but the public at large had much interest in the matter, as did the Santa Fe Railroad company and as did the exact terms of the injunction issued in the case of Debs, which was sustained by the supreme court of the United States and which has been followed by the federal courts throughout the entire country.

The matter being of so great importance to the parties in the case and the community and the traveling public, the court deemed its duty to appoint a referee to take testimony of both parties before a final determination of the case, which action of the court is not without many precedents, and therupon appointed a stock as referee, with direction to proceed at the convenience of the parties and to report such evidence on the last day of June.

In the meantime the injunction will remain in full force.

The court also stated that no one could be injured by the constrained force of the injunction as it only prevented the doing of any wrong had any one intention so to do.

## SELF EXPLANATORY

A short time ago J. D. Hughes, of this city, presented a letter to Charles S. Ward, secretary of the International Young Men's Christian Association, Chicago, regarding a building here, and in reply received the following letter:

Chicago, April 26.  
John D. Hughes, 204 South Walter Street, Albuquerque, N. Mex.

Dear Sir:—Years of the 14th last, I am at hand, and I have also had a brief conference with Mr. J. Ralph Taucher, of Albuquerque, on the same subject. For reasons which came out in the discussion with Mr. Taucher, I think it would be wise that the movement for a building at Albuquerque be delayed for a few months, at least until we can find some citizens who will make a start with a liberal subscription—say of \$5,000, on condition that the entire amount need be secured within a limited time.

Meanwhile either I or another of our secretaries will take advantage of our first opportunity in the course of a southwestern trip to visit Albuquerque. We may not be able to do this for several months.

## MORE STRIKE BREAKERS

### ARRIVED LAST NIGHT AND PUT TO WORK THIS MORNING.

There is little change in the strike situation since the blacksmiths struck on Monday.

Thirty-five additional strike breakers arrived last night, where only fourteen were expected, but all were graciously received and marched into the stockade.

Today tents were pitched inside the stockade to relieve the over crowded sleeping quarters.

An amount of beer sent to the shops daily has increased materially in quantity.

Local officials report every department working and that only a few of the new comers have been discharged for incompetency.

Last night passenger train No. 7 carried a car load of strike breakers through west. These men rode in an upholstered sleeping car and were a very respectable looking lot. They were not of the boomer type from outward appearance and were comfortably clothed.

It is reported that the company was compelled to furnish some of those at the shops with overalls and shoes.

The car load which went west num-

bered forty and were fed at the station, the food taken from the Harvey house and packed in through the door. While the food was being devoured Superintendent Shepard, Superintendent Gossom and Carl Solvay stood outside the car and looked the strike breakers over through the car windows. They were not permitted to talk to outsiders.

**Montana Eagles in Session.**

Billings, Mont., May 5.—The rapid growth of the order of Eagles in Montana is evidenced by the large and representative attendance at the state convention which began here today. Delegates are present from all the chief cities of the state. Business and pleasure is combined in the two days program for the gathering.

**Washington Democrats.**

Trenton, N. J., May 5.—The cause of George F. Krosch and A. C. Twinning, directors of the defunct First National bank of Ashbury Park, were called for trial today before Judge Kirkpatrick. The two are accused of causing falsely to a report of the bank's condition to the comptroller of the currency.

**Ex-Bankers on Trial.**

Olympia, Wash., May 5.—After causing all night, it is stated the different factions in the democratic state convention which meets here today, agreed to compromise, which provides for the selection of a delegation to the national democratic convention, with supporters of W. H. Hearst in the majority.

The machinist helpers and boilermaker helpers were then told to do machinist and boilermakers' work. This they refused to do and a walk out was decided upon.

The handymen and helpers not liking the looks of the row men and helping in sympathy with those formerly employed, also went out.

As we are all out for the same cause and as we cannot expect to win this strike unless we bind ourselves together; be it

Resolved: That no man goes back to work unless every man who went out in this strike be allowed to take his

## MARIANO ARMIJO DEAD FROM PNEUMONIA

In the death of Mariano Armijo y Osoro, which occurred last evening at the home of Col. John Borraldo, there passes from our midst one of Albuquerque's well known citizens, viscerous at the age of 82 years and leading an active life as editor of the *Diario de Oro*, Mr. Osoro succumbed to pneumonia contracted only a little over a week ago. He had had several days, but not until after he had become seriously ill did he consent to go to the home of his sister Mrs. John Borraldo. He took to bed and the ravages of the disease settled on him rapidly. Nothing could check his advance, and last evening at 6:30 o'clock the end came.

Mariano Armijo y Osoro was a true son of New Mexico. He was born in Old Albuquerque, and his parents were natives. He was a son of Don Ambrosio Armijo, one of the foremost early day settlers of the valley. After prominent in public and business a seeming of age, the deceased became prominent in public and business enterprises of the Rio Grande valley. He was possessed of considerable wealth at one time, and built the first two story building in the new town of Albuquerque—the Armijo hotel which was destroyed by fire a few years ago. He was one of the organizers and incorporators of the original Townsite company of Albuquerque and several times since the birth of the city has held responsible political positions. He was a member of one of the most prominent and powerful families of New Mexico. Those who survive him are Perfecto, Jesus and Elias Armijo, brothers; Mrs. John Pratt of New York City, Mrs. John Borraldo, Mrs. Fred Heyn, and Mrs. M. B. Otero, sisters and sons Harry Benjamin, of this city, George W. Ariz. Jr. and Mariano Armijo, Jr., of Santa Fe; children. The wife Mrs. Lola Chaves de Armijo, resides in Santa Fe.

All relatives have been telegraphed the sad tidings and a large number from out of the city are expected to attend the funeral which will occur tomorrow (Friday) morning at 9:30 o'clock from the church of San Felipe de Neri, old town.

The court also stated that no one could be injured by the constrained force of the injunction as it only prevented the doing of any wrong had any one intention so to do.

Very truly yours,

C. S. WARD.

## Arizona Rabbit Drive.

The rabbit drive at the Olsen ranch was well attended a number of Phoenix, Tempe and Mesa people going down to see the sport or to take part in the drive says the Enterprise. One drive was made in the forenoon and one in the afternoon.

Market Letter.

Special Correspondence.

Kansas City, Mo., May 2.—The cattle supply at Kansas City last week was 30,000 head, and included a fair supply of fed western and packhounds steers and heifers, but a small proportion of range stockers or tenders. Kansas fed handle steers 1,223 pounds sold at \$1.75 Monday and tidy Western steers brought \$1.90 Tuesday, which was the high day of the week. After Tuesday the market gave way to the influence of big receipts and finally closed about like the close of the previous week, but shippers got the benefit of a high range of prices all week. The stuff did not loose much, however, and good western fed heifers 264 pounds sold at \$1.45 on Wednesday, with anything good to choice selling above \$1.00. There was small inquiry for stock or feeding cattle but it was more than ample for the very small supply, and prices according gained 10 or 15 cents during the week. Choice stockers had the call, and some southwestern 611 pound steers brought \$4.00 Tuesday. Same day 984 pound Colorado feeders sold at \$1.10. Several dealers are carrying orders for stock cows, being unable to fill them stock calves are also wanted. Market closed Friday steady to strong as compared with low time of the week. Thursday some heavy horned Colorado steers 1,860 pounds sold Friday at \$4.50. Cattle today were Thursdays sale. Supply today is moderate at 6,000 head, market steady to strong on nearly everything, but a few plain heavy beef steers are moving slowly.

With moderate receipts in the next few weeks, dealers expect modest advances in prices.

Sheep run of 16,000 last week was not sufficient for killers here, and prices gained 20 to 25 cents. It is the season between unclipped and clipped stock, and more of the latter arrived today than all of last week together.

The first Texas sheep of the season arrived today; seven odds of 75 pound clipped Texas, from Peck Ranch, sold at \$1.90 considered a very good opening price.

High grade clipped wethers from vicinity of Dallas sold at \$5.25, and spring lambs out of same shipment brought \$7.25, weighing 55 pounds.

Western clipped lambs sold at \$6.00 and woolly wethers lambs sold at \$6.75 late last week, and wethers would bring \$5.75 or choice ones.

Kansas and Colorado feed lots are empty, and Texas and Arizona must furnish bulk of supply for some time to come. Everything points to present high range of prices holding good.

## Legal Degrees for Colored Woman.

Topeka, Kas., May 5.—The annual grand rally of the Knights of Pythias of Kansas began in Topeka today and many hotels and other buildings in the downtown district are gay with flags and K. of P. emblems in honor of the visitors. Nearly every large city in the state is represented. During today and tomorrow at least 1,000 candidates will receive the page rank.

**Montana Eagles in Session.**

## THE POPE ON THE LABOR QUESTION

The International Society for the Protection of Workmen with headquarters at Biel, Switzerland, has received the following letter from the papal secretary of state, Merry del Val:

"My sublime master, the Pontiff, desires me to express to you that like his predecessor, Pope Leo XIII, he is in hard accord, with all movements intended to benefit workmen, this point in particular deserves attention that he favors with all his heart the lightening of the burden of the men and women who work with their hands. Work should be regulated as to conform to the physical ability of the workmen; it should be regulated to fit the sexes; it should be regulated to permit the stoppage of all work on Sundays. The workmen should be protected against employers and employees that have no regard for his dignity as a man and as a citizen, that endeavor his morality and interfere with his family life."
